# ACKNOWLEDGMENTS

This book is dedicated to those many classroom teachers, school psychologists, counselors, and consultants who encouraged me to develop these social skills materials and to those children who made it possible.

The first edition of these materials was developed under my direction over the period from 1970 to 1977 by many graduate students who were employed on a number of projects of which I was the principal investigator.

Since the publication of the original materials in 1978 by Cedars Press, classroom teachers, counselors, and school psychologists who used them provided valuable suggestions to me. Many of these suggestions have resulted in changes in the current text.

I very much appreciate the able assistance and patience of Kathy Richards who typed this manuscript.
